Really enjoying this game so far! I haven't played much yet, but I can see myself getting way into this game. It's a very simple game but it's super addictive. It also makes full use of room scale. Plus it looks great in VR! Very pretty setting and the dragon looks awesome.

One thing I would like to see is a global leaderboard (I don't think this exists in the game yet?). Also a daily global leaderboard would be really cool, similar to what ZenBlade does. Other than that, I really don't have any suggestions!

My other favorite games for the Vive right now are ZenBlade and QuiVR, also the Lab. I think if you enjoy any of those you will really like this too!. This game made me feel things because of a bunch of rocks.

10/10. This game is really fun :). its♥♥♥♥♥♥balls dont buy. I absolutely love this game. My only qualm is the difficulty of finding the secret rooms. Once I knew which rooms they were in, I found the difficulty fine. But there really was no in-game clue to where they were, other than the hole in the map, which was often bordered by several rooms.

Now that the criticism is out of the way, let me just say the difficulty progression, level design, puzzles, visuals, etc are all great and I highly recommend this game to anyone who ever played the Adventures of Lolo as a kid.

If you are no good at voice acting, and can't afford to get proper voice actors, then just leave the voices out completely; it's fine, the old games that this one claims to be inspired by didn't have voice overs anyway.

I wasn't impressed by this game in any way. The visuals are not bad but the gameplay is basic and takes far too many cues from 'rage' games, throwing enemies and pitfalls at the player that they couldn't reasonably be expected to avoid without prior knowledge. The level design is run-of-the-mill and requires pixel perfect positioning to avoid damage from enemy attacks.

Overall I just didn't find the game rewarding or enjoyable; I was sick of it within 20 minutes. There are plenty of these 'retro inspired' platformers on Steam and most of them are better and cheaper than this. Go play one of those instead.. Pretty sweet. Finally figured out some control options...

so far only able to play in hard mode.

arrows move, mouse seems to do nothing

<Tab> rotates gameplay screen, repeatedly pushing shift+tab will eventually pull up the steam, but you may need to correct game orientation afterwards

f - in / out of fullscreen

w - in and out of zoom?

z seems to be fire....

c is bomb

esc is pause

s is game track

pretty fun once i got it going ;)

.

แต่ทั้งนี้ก็ยังมียังมีสิ่งที่ต้องปรับปรุงอยู่หลายจุดอย่างเช่น

จุดควบคุมเสียงประกอบมันสะดุดครับ ติดขัดเสียส่วนใหญ่

บั๊กในเกมที่มีให้กันหลายจุด เกมแต่งเกมค้างที่จุดสำคัญ

และการเฟสเข้าออกฉากที่ขึ้นที่เร็วเกินไป

ส่วนเสียงพากษ์ครับ ก็....ครับ ขอชมว่าเป็นเกมไทยที่เสียง ENG ได้คะแนนเต็มสิบครับ

ส่วนเสียงไทย...ช่วยทำให้ต่างจากละครไทยสักหน่อยได้มั๊ยครับ เจอ "ตอนมัทธม เธอมีอาการแปลกๆ" เข้าไปที่เดียวความกลัวหายเกลี้ยงเลยครับ

ส่วนอื่นๆนั้นเยี่ยมมากครับ มีหน่วงเวลาเล่นกับจอปกติเล็กน้อย แต่ถามจากเพื่อนต่างชาติที่เล่นกับ VR บอกว่าไม่หน่วงเลย

ส่วนตัวให้ 8.5/10 ครับ. This was recommended to me by a friend and immediately became one of my favourite games ever.

Probably has the best worldbuilding I've ever seen in a game, paired with an amazing soundtrack and a distinct, beautiful art style, both of which help shape the atmosphere of the game. 10/10, would absolutely recommend.. I enjoyed many hours playing this on Nintendo 3DS. Great remake from the ground up. It's like a whole new game. Love all the characters in the game its hard to pick my favorite.. It's a scam, don't buy.. You upgrade your wubmachine with wubs you find playing a level listening to wubs...

I love it!. Love the skin, however it would be a veri nais idea to add a "Tribal Monkey" to the game, or to Bloons TD 6, I would love to see that
